) The Honorable Kevin S.C. Chang

Federal Defendants United States Department of Energy ("DOE") and the National Science Foundation ("NSF") hereby file the following errata for Federal Defendants' September 5, 2008 "Response In Opposition To Plaintiffs' August 5, 2008 Motion For A Default Judgment And Permanent Injunction Against CERN [Dkt. No. 29]," Dkt. No. 73:

Federal Defendants' September 5, 2008 Response brief inadvertently refers to the Large Hadron Collider ("LHC") project at issue in this litigation as the "\$500-billion LHC" on page 4, the "\$500-billion dollar project" and "\$500-billion LHC" on page 25, and the "\$500-billion project" on page 26. The amount in these references actually should be \$5 billion, as correctly stated elsewhere in the Response brief on page 6, footnote 2 ("the total cost of constructing the LHC, excluding labor costs, is roughly \$5.84 billion") and on page 36 ("more than \$5-billion to construct"). The United States' share of this \$5-billion construction cost was in excess of \$500 million, as reflected in the Response brief. See, e.g., Resp. at 36 ("the United States' \$531-million investment in the project").

Dated this 8th day of September 2008.

Respectfully submitted,

EDWARD H. KUBO, JR. (2499)
